

Applies to:

Aetna plans

Innovation Health® plans

Health benefits and health insurance plans offered, underwritten, and/or administered by the following:

Allina Health and Aetna Health Insurance Company (Allina Health | Aetna)

Banner Health and Aetna Health Insurance Company and/or Banner Health and Aetna Health Plan Inc. (Banner | Aetna)

Sutter Health and Aetna Administrative Services LLC (Sutter Health | Aetna)

Texas Health + Aetna Health Plan Inc. and Texas Health + Aetna Health Insurance Company (Texas Health Aetna)

Knee Arthroplasty Precertification Information Request Form

About this form

Do not use this form to initiate a precertification request. To initiate a request, submit electronically on Availity or call our Precertification Department. Submit your medical records to support the request with your electronic submission.

We've made it easy for you to authorize services and submit any requested clinical information. Just use our provider portal on Availity®. Register today at [Availity.com/aetnaproviders](https://www.availity.com/aetnaproviders). Once your account is ready, you can start submitting authorization requests right away.

- For additional information on Availity, go to <https://www.aetna.com/health-care-professionals/resource-center/availity.html>

Requesting authorizations on Availity is a simple two-step process

Here's how it works:

1. Submit your initial request on Availity with the Authorization (Precertification) Add transaction.
2. Then complete a short questionnaire, if asked, to give us more clinical information.
 - If you receive a pended response, then complete this form and attach it to the case electronically.

This form will help you supply the right information with your precertification request. Typed responses are preferred. Failure to complete this form and submit all medical records we are requesting may result in the delay of review or denial of coverage.

How to fill out this form

As the patient's attending physician, **complete the sections of the form for the appropriate procedure.**

For **Primary Knee Arthroplasty** complete ONLY sections: 1, 2, 5,6,7 and 8

For **Total knee revision, replacement or knee resurfacing arthroplasty** complete ONLY sections: 1,3,5,6,7 and 8

For **Unicompartmental Knee Replacement** complete ONLY sections: 1,4,5,6,7 and 8

You can use this form with all Aetna health plans, including Aetna's Medicare Advantage plans. You can also use this form with health plans for which Aetna provides certain management services.

When you're done

Once you've filled out the form, submit it and all requested medical documentation to our Precertification Department by:

- If your request was submitted via telephone, you can either:
 - Access our provider portal via Availity; enter the Reference number provided and attach this form and all requested medical documentation to the case or
 - Send your information by confidential fax to:
 - **Precertification-** Commercial and Medicare using FaxHub: **1-833-596-0339**
 - The fax number above (FaxHub) is for clinical information only. Please send specific information that supports your medical necessity review. Please continue to send all other information (claims etc) to appropriate fax numbers.
 - If you do not have fax or electronic means to submit clinical:
 - Mail your information to: **PO Box 14079**
Lexington, KY 40512-4079
(Please note mailing will add to the review response time)

Knee Arthroplasty Precertification Information Request Form

What happens next?

Once we receive the requested documentation, we'll perform a clinical review. Then we'll make a coverage determination and let you know our decision. Your administrative reference number will be on the electronic precertification response.

How we make coverage determinations

If you request precertification for a Medicare Advantage member, we use CMS benefit policies, including national coverage determinations (NCD) and local coverage determinations (LCD) when available, to make our coverage determinations. If there isn't an available NCD or LCD to review, then we'll use the Clinical Policy Bulletin referenced below to make the determination.

For all other members, we encourage you to review **Clinical Policy Bulletin # 660 Knee Arthroplasty** before you complete this form.

You can find the Clinical Policy Bulletins and Precertification Lists by visiting the website on the back of the member's ID card.

Questions?

If you have any questions about how to fill out the form or our precertification process, call us at:

- HMO plans: [1-800-624-0756](tel:1-800-624-0756) (TTY: [711](tel:711))
- Traditional plans: [1-888-632-3862](tel:1-888-632-3862) (TTY: [711](tel:711))
- Medicare plans: [1-800-624-0756](tel:1-800-624-0756) (TTY: [711](tel:711))

Knee Arthroplasty Precertification Information Request Form

Section 1: Provide the following general information for all requests Typed responses are preferred. If the responses cannot be typed, they should be printed clearly.	
Member name:	Reference number (required):
Member Phone Number:	
Member ID:	Member date of birth:
Requesting provider/facility name:	
Requesting provider/facility NPI:	
Requesting provider/facility phone number: 1- - -	
Requesting provider/facility fax number: 1- - -	
Assistant Surgeon and TIN:	
Physical Therapist Name:	
Physical Therapist Phone Number: - -	
Physical Therapist Fax Number: - -	
Has the procedure been scheduled? <input type="checkbox"/> Yes <input type="checkbox"/> No	
If yes, what is the date of service:	
Which knee will surgery be performed on?	
<input type="checkbox"/> Left <input type="checkbox"/> Right	
Section 2: Primary Knee Arthroplasty (complete ONLY sections: 1, 2, 5, 6, 7 and 8)	
Reason for surgery (Diagnosis)	
<input type="checkbox"/> Osteoarthritis	
<input type="checkbox"/> Rheumatoid arthritis	
<input type="checkbox"/> Avascular necrosis	
<input type="checkbox"/> Post-traumatic arthritis	
<input type="checkbox"/> Malunion of fracture (distal femur or proximal tibia)	
<input type="checkbox"/> Fracture of Distal Femur/Proximal Tibia	
<input type="checkbox"/> Nonunion/failure of a previous distal femur or proximal tibia fracture surgery (shown by imaging)	
<input type="checkbox"/> Malignancy of the distal femur, proximal tibia, knee joint or adjacent soft tissues by imaging	
<input type="checkbox"/> Failure of previous unicompartmental knee replacement	
<input type="checkbox"/> Failure of previous osteotomy for osteoarthritis	
The patient's advanced joint disease is demonstrated by:	
Pain that interferes ADLs:	<input type="checkbox"/> Mild <input type="checkbox"/> Moderate <input type="checkbox"/> Severe
Functional disability that interferes with ADLs:	<input type="checkbox"/> Mild <input type="checkbox"/> Moderate <input type="checkbox"/> Severe
<input type="checkbox"/> During the physical exam, that includes passive range of motion (ROM):	
Demonstrates limited ROM:	<input type="checkbox"/> Yes <input type="checkbox"/> No
Effusion or swelling in the joint:	<input type="checkbox"/> Yes <input type="checkbox"/> No
Crepitus (cracking, creaking or grating sounds):	<input type="checkbox"/> Yes <input type="checkbox"/> No
Member age and BMI:	
BMI over 40	<input type="checkbox"/> Yes <input type="checkbox"/> No
Age under 50	<input type="checkbox"/> Yes <input type="checkbox"/> No

Knee Arthroplasty Precertification Information Request Form

Member name:	Phone Number:
---------------------	----------------------

Member ID:	Reference number (required):
-------------------	-------------------------------------

Section 3: Total knee revision, replacement or knee resurfacing arthroplasty (complete ONLY sections: 1,3,5,6,7and 8)

Is this a revision or replacement of a total knee or knee resurfacing arthroplasty? Yes No

Aseptic loosening of one or more prosthetic components - confirmed by imaging

Fracture or mechanical failure of 1 or more components of the prosthesis or worn or dislocated plastic insert - confirmed by imaging

Periprosthetic fracture of distal femur, proximal tibia or patella - confirmed by imaging

Progressive or substantial periprosthetic bone loss - confirmed by imaging

Bearing surface wear leading to symptomatic synovitis

Knee arthrofibrosis

Implant or knee malalignment (valgus/varus or flexion/extension greater than 15 degrees),

Instability of dislocation of the total knee replacement (TKA)

Extensor mechanism instability

Confirmed periprosthetic infection by gram stain and culture,

Persistent knee pain of unknown etiology that has not responded to non-surgical care for six (6) months, including:

- NSAIDS duration _____
- Formal PT duration and dates _____
- Activity Modification
- Assistive device (for example, cane)
- Joint injection

Member's advanced joint disease is demonstrated by:

Pain that interferes ADLs: None/Mild Moderate/Severe

Functional disability that interferes with ADLs: None/Mild Moderate/Severe

Does patient have any of the following?

Persistent infection

Poor bone quality,

Highly limited quadriceps or extensor function

Osteoporosis or other bone abnormalities which would make the likelihood of a poor outcome more probable

Poor skin coverage

Poor vascular status

Knee replacement system

Will a custom total knee implant be utilized? Yes No

Will the MAKOplasty/MAKO Tactile Guidance System be utilized? Yes No

Member name:	Phone Number:
---------------------	----------------------

Reference number (required):	Member ID:
-------------------------------------	-------------------

Section 4: Unicompartmental Knee Replacement (complete ONLY sections: 1, 4, 5, 6, 7 and 8)

Reason for surgery (Diagnosis)

Advanced osteoarthritis

Posttraumatic arthritis of the knee affecting only a single compartment

During the physical exam, that includes passive range of motion (ROM):

Demonstrates limited ROM

Effusion or swelling in the joint

Crepitus (cracking, creaking or grating sounds)

Intact, stable ligaments, in particular the anterior cruciate ligament

Knee arc of motion (full extension to full flexion) is not limited to 90 degrees or less

Radiologic Exam:

What Kellgren-Lawrence Grade is shown by X-ray affecting only a single (medial, lateral or patellofemoral) compartment of the knee joint

0 1 2 3 4 bone on bone Angular deformity (measurement in degrees) _____

Has the patient tried any of these conservative therapies in the last year?

Pain medication (ibuprofen, acetaminophen) Duration: _____

Formal physical therapy: Duration: _____ Dates: _____

Flexibility and muscle strengthening exercise

Activity Modification

Assistive device (i.e cane)

Therapeutic injections

Therapy not appropriate

Reason: _____

Did the patient complete a minimum of 12 weeks of non-surgical treatments? Yes No

Knee Arthroplasty Precertification Information Request Form

Member name:	Phone Number:
Member ID:	Reference number (required):

Section 4: Unicompartmental Knee Replacement (continued)

Has the patient had:

- Previous proximal tibial osteotomy or distal femoral osteotomy
- Tibial or femoral shaft deformity
- Radiographic evidence of medial or lateral subluxation
- Flexion contracture greater than 15°
- Varus deformity greater than 15° (medial Unicompartmental knee arthroplasty) or a valgus deformity greater than 20° (lateral Unicompartmental knee arthroplasty)
- Inflammatory or crystalline arthropathy
- Subchondral bone loss due to large subchondral cysts or extensive focal osteonecrosis.

Member has none of the following absolute contraindications to joint replacement:

- Active infection of the joint or active systemic bacteremia that has not been totally eradicated
- Active skin infection (exception recurrent cutaneous staph infections) or open wound within the planned surgical site of the knee
- Vascular insufficiency, significant muscular atrophy of the leg, or neuromuscular disease severe enough to compromise implant stability or post-operative recovery or quadriplegia
- Osseous abnormalities that cannot be optimally managed and which would increase the likelihood of a poor surgical outcome (i.e., inadequate bone stock to support the implant)
- Allergy to components of the implant (e.g., cobalt, chromium or alumina).

Section 5: Provide the following documentation for your request

- Current history and physical
- Description of proposed treatment
- Lab/pathology and radiology reports (X-rays, MRI, CT), if applicable
- Supporting medical records documenting clinical findings, conservative management with outcome and current plan of care.
